PROFESSIONAL SUMMARY

Information Systems graduate and Magna Cum Laude with two years of professional experience spanning full-stack web and systems development, IT operations, technical support, and business process support. Conceptualized and developed AIMS, a modular PHP/MySQL business platform, with hands-on work across application architecture, backend services, databases, authentication, APIs, reporting, and production support. Earlier IT operations experience includes Active Directory, endpoint support, networking, asset management, hardware upgrades, and security patching. Comfortable translating operational requirements into practical technical solutions and using AI-assisted development workflows for prototyping, implementation, debugging, and iteration.

PROFESSIONAL EXPERIENCE

Personal Technical Assistant / Full Stack Web/System Developer

Office of Alexander A. Tan, Stockholder, Aleson Shipping Lines, Inc. | Aug 2024 – Aug 2026

- Conceptualized and developed AIMS, a modular PHP/MySQL platform supporting employee, authentication, ticketing, cargo, POS/inventory, reporting, administration, and public-service workflows.
- Designed and implemented reusable services and business workflows for authentication, session management, RBAC, push MFA, login monitoring, notifications, reminders, exports, and document verification.
- Applied MVC and layered architectural patterns with subsystem-based routing, reusable service classes, database workflows, and audit-oriented logging.
- Implemented and supported web/API integrations including Google OAuth, reCAPTCHA, Gmail API, Firebase FCM, Facebook Sign-In/API, PHPMailer, and HTTP APIs; evaluated document-verification and OCR tooling.
- Built and supported cargo/BOL workflows, ticketing and boarding, reports, POS/inventory, canteen, internal cash/ICR/PDC/voucher functions, employee management, notifications, and access control.
- Handled application troubleshooting, database work, production/hosting support, file-transfer workflows, technical documentation, and final technical handover.

IT Operations Technical Support Intern

Concentrix – Alabang 2 & 3 Site | Jan 2024 – May 2024

- Provided day-to-day IT operations and technical support by resolving, monitoring, and documenting technical and network-related support tickets with senior IT staff.
- Managed IT assets through inventory audits, asset-log updates, equipment tracking, and disposal of outdated hardware while maintaining an organized IT room.
- Performed desktop re-imaging, system setup, endpoint maintenance, and hardware upgrades, including RAM and SSD installation.
- Supported network infrastructure activities including floor and port mapping, port tracing, cable management, and troubleshooting connectivity issues, including stray-IP cases.
- Worked with Active Directory, domain changes, hostname/IP/serial verification, security patching, and compliance-related endpoint maintenance; maintained records in Excel and internal systems.

Freelance / All Around Tech & Creative Support

Ms. Victoria S. Bolado & Ms. Tina Tan of TDF Foods & Carica Herbal Health, Inc. | ~3 years

- Managed Facebook page activities, content creation, graphic design, photography, and advertisement support.
- Layout billboards, tarpaulin, product labels, emergency blueprint plan of Carica plant, cemetery, etc.
- Edited book of Carica Herbal Health Products.

Sales Reconciliation Assistant / Sales Data Analysis

Cat Sales of Carica Herbal Health Products, Inc. | ~2 months

- Reconciled daily product-level sales across 112 branches by downloading branch reports from mall portals, consolidating sales data, and validating totals using Excel and PivotTables.
- Verified quantities sold and total sales figures to ensure reported daily sales were accurately tallied and reconciled.
- Completed and reconciled five outstanding/late sales reports, ensuring missing reporting periods were properly accounted for.

EDUCATION

LEVEL	NAME OF SCHOOL	COURSE / STRAND	YEAR	UNITS EARNED / GWA
College	Dr. Filemon C. Aguilar Memorial College of Las Piñas – IT Campus (DFCAMCLP)	Bachelor of Science in Information Systems	2020–2024	152 units / 1.39
Senior High School	Asian SEED Academy of Technology (SEED)	Information, Communications and Technology (ICT)	2018–2020	54 units / 3.2 (AA)
Junior High School	CAA National High School (NHS)	Grade 7-10	2016–2020	89
Elementary	Asian SEED Academy of Technology (ES)	Grades 5–6	2014–2016	—
Elementary	Central Elementary School, Catanauan, Quezon	Grades 3–4	2012–2014	—
Elementary	Christ Jewels Christian School (CJCS)	Grades 1–2	2008–2010	—

TECHNICAL SKILLS

Web / Backend PHP, JavaScript, AJAX/JSON, HTML/CSS, Java, Python	Architecture / Systems MVC, layered architecture, subsystem routing, business services, RBAC
APIs / Integrations Google OAuth, reCAPTCHA, Gmail API, Firebase FCM, Facebook API, HTTP APIs, PHPMailer	Security / Identity Authentication, MFA, session management, access control, login monitoring
Databases / Tools MySQL, DBaver, Git, VS Code, WAMP/Server, XAMPP, FileZilla, cPanel	IT Operations Active Directory, domain changes, patching, reimaging, asset inventory, port tracing, cable management
Data / Reporting Microsoft Excel, PivotTables, sales reconciliation, data validation, reporting	Development Workflow AI-assisted development, prototyping, debugging, implementation, iterative problem solving

CERTIFICATIONS & CREDENTIALS

- CSC Honor Graduate Eligibility — Civil Service Commission, National Capital Region (issued Mar 24, 2026; effective Jul 26, 2024)
- TESDA Certificate of Completion — Introduction to Computer Systems Servicing (Aug 6, 2026)
- OPSWAT — Introduction to Critical Infrastructure Protection
- DICT LMS Programme — Basic Programming Using Python
- Hacktoberfest 2022 Seminar

SELECTED PROJECT

AIMS — Aleson Integrated Management System

Aug 08, 2024 – Aug 31, 2026 | Business-oriented web platform spanning operational, management, administrative, and passenger-service workflows. The project documentation covers modular PHP/MySQL architecture, reusable services, integrations, subsystem workflows, architecture/DFD materials, and technical handover.
